

HoS Allergens information

The information in this document is derived from the supplier supplied information and is separated into three:

Contains:

The dish or component contains the stated allergen as a deliberate ingredient

May Contain:

The allergen is not a deliberate ingredient, however following a risk assessment there is a probable risk of cross contact , this includes “made in a factory that also handles X allergens”

Does not Contain:

The dish or component does not contain the specific allergen. This is not a free from claim as there is a remote potential of cross contact and has not been scientifically tested to ensure the allergen is below the analytical limit of detection

Our kitchen handles many of the 14 legally defined allergens, and as a consequence we are unable to make any free from claims regarding allergens.
